Marie Curie in her laboratory, around 1900.

**MARIE CURIE AND THE SISTERHOOD OF SCIENCE** is a mesmerizing, radioactive adventure in scientific discovery and great for young audiences! This production showcases Marie Curie as a figure of mythic proportions – an ordinary woman who became an extraordinary force for good, won two Nobel prizes in two different fields, and saved thousands of lives on the battlefield in WW1 and millions thereafter with her ground-breaking technology, X-Rays.

As told through the eyes of her young daughters, Irène and Eve, Marie's life was not easy. Much of her extraordinary journey was as a single mother, raising 2 children alone, defying social conventions as a woman in a male-dominated field, and working with incredibly dangerous material that took a toll on her health and body. But her mission was simple, her name forever remembered, her story...heroic!
